vertex cover
maximum leaf number
distance to constant components
distance to complete
maximum matching
bandwidth
feedback edge set
distance to linear forest
distance to stars
vertex integrity
twin-cover number
distance to co-cluster
clique cover number
edge clique cover number
topological bandwidth
cutwidth
genus
feedback vertex set
treedepth
distance to cluster
maximum independent set
neighborhood diversity
pathwidth+maxdegree
carving-width
pathwidth
distance to outerplanar
distance to block
distance to interval
shrub-depth
distance to cograph
domination number
maximum induced matching
modular-width
maximum degree
treewidth
distance to planar
linear rank width
odd cycle transversal
distance to chordal
linear clique-width
diameter
book thickness
branch width
rank width
distance to maximum degree
distance to perfect
average distance
h-index
infflip-width
boolean width
acyclic chromatic number
girth
twin width
clique width
boxicity
degeneracy
radius-r flip-width
arboricity
average degree
chromatic number
bisection bandwidth
minimum degree
maximum clique
chordality
edge connectivity
domatic number
