vertex cover
maximum leaf number
distance to constant components
distance to complete
maximum matching
bandwidth
feedback edge set
distance to linear forest
twin-cover number
vertex integrity
distance to stars
edge clique cover number
clique cover number
distance to co-cluster
topological bandwidth
cutwidth
genus
feedback vertex set
treedepth
distance to cluster
neighborhood diversity
maximum independent set
pathwidth+maxdegree
carving-width
pathwidth
distance to outerplanar
odd cycle transversal
distance to block
modular-width
shrub-depth
distance to interval
domination number
maximum induced matching
distance to cograph
treewidth
maximum degree
distance to planar
linear rank width
linear clique-width
distance to chordal
diameter
branch width
book thickness
distance to maximum degree
clique width
distance to perfect
average distance
bisection bandwidth
rank width
acyclic chromatic number
h-index
girth
inf-flip-width
boolean width
degeneracy
boxicity
twin width
arboricity
average degree
chromatic number
minimum degree
radius-r flip-width
maximum clique
chordality
edge connectivity
domatic number
